# SHREYAS JAGTAP

*Data Scientist*

+91 8265000879 | shreyasjagtap262004@gmail.com | Pune | LinkedIn | GitHub

## PROFILE SUMMARY

Aspiring Data Scientist with expertise in Python, SQL, Machine Learning, Deep Learning, Natural Language Processing (NLP), and Data Analysis. Skilled in building predictive models, recommendation systems, and interactive dashboards using Scikit-learn, TensorFlow, Power BI, and Streamlit. Passionate about leveraging data-driven insights and AI technologies to solve real-world business problems and support informed decision-making.

## PROJECT

### Movie Recommendation System | Python, NLP, Scikit-learn | Link

- Built a content-based Movie Recommendation System using NLP and Cosine Similarity to recommend movies with similar content based on user-selected titles.
- Processed and transformed TMDB movie metadata by extracting genres, cast, crew, keywords, and overview, then applied text vectorization using TFIDF for new tags column.
- Implemented the recommendation engine with Scikit-learn and optimized similarity search for fast, accurate recommendations using precomputed similarity matrices.

### Shopping Preference Prediction System | Python, Random Forest, Scikit-learn | Link

- Developed a Machine Learning model to predict customer shopping preferences based on demographic and features using Python and Scikit-learn.
- Performed data preprocessing, including handling missing values, feature encoding, feature scaling, and train-test splitting to prepare the dataset for model training.
- Built and evaluated classification models to predict customer purchase preferences, enabling data-driven marketing strategies and personalized shopping recommendations.

### Taxi Fare Predictor Machine Learning Model | XGBoost ,Scikit Learn | Link

- Developed a Taxi Fare Prediction model using Python and Machine Learning to estimate trip fares based on ride-related features.
- Performed data preprocessing, feature encoding, scaling, and train-test splitting to prepare the dataset for model training.
- Built and evaluated a Linear Regression model using Scikit-learn, achieving accuracy through **R2 score** 87.6%.

## SKILLS

**Tools & Technologies:**

- **Programming:** Python, SQL
- **Data Analysis:** Pandas, NumPy, Excel, Statistics, Data Cleaning, EDA
- **Deep learning:** Cnn,Ann,Rnn,Perceptron
- **Visualization:** Power BI, Matplotlib, Seaborn
- **Machine Learning:** Scikit-learn, Classification, Regression, Feature Engineering, Model Evaluation, Hyperparameter Tuning
- **NLP:** Natural Language Processing, CountVectorizer, Cosine Similarity
- **Databases:** MySQL, MySQL Workbench
- **Deployment & Tools:** Streamlit, Flask, Git, GitHub, VS Code, Pickle
- **Cloud & AI:** Azure, Hugging Face, n8n,Docker

## EDUCATION

- **Bachelor of Business Administration in Computer Applications (BBA-CA)**
  **Sarhad College of Commerce & Arts, Pune** *2021-2024*
- **Master of Computer Applications (MCA)**
  **Pune Cambridge Institute, Pune** 2024-2026
